Description
This method is only used by the main layout and has many parameters that are always set to the default value or not even used. It can be simplified.

Associated revisions

Revision 2a0e0ce6 - 12/03/2020 02:17 PM - Tomer Brisker
Fixes #31368 - Simplify mount_search_bar method

This method made a lot of preparations for customization, but in practice it is never used except for the default case in the main layout. Any more elaborate customization should be done in react and not in erb.
