Description

the jobs in the "remote_execution" queue will only be processed only if the "default" queue is empty.

Refs #31964 - Introduce foreman::to_symbolized_yaml

This function symbolizes keys in YAML which is typically what Foreman config files use. This is hard to achieve with pure Puppet so a Ruby function is used.

Revision 616f172d - 04/07/2021 12:47 PM - Ewoud Kohl van Wijngaarden

Fixes #31964 - Assign equal weight to sidekiq queues

The previous approach worker, but it made sidekiq default worker process all items from the default queue before moving to remote execution queue. This change adds equal weight to the queues, making sidekiq pick jobs from both.
