I would like to contribute the "support" for Rocky Linux. It is actually already working out of the box, just the logo is missing.

I also checked the licensing terms for the logos so this shouldn't be a problem. ([https://github.com/rocky-linux/branding](https://github.com/rocky-linux/branding))

Also referencing the discussion in the forum: [https://community.theforeman.org/t/client-recognition-for-rocky-linux-in-foreman-katello/23437](https://community.theforeman.org/t/client-recognition-for-rocky-linux-in-foreman-katello/23437)

Thank you!
