**Description**

How reproducible:

Steps to Reproduce:
1. Create a new compute resource in foreman (VMware) using incorrect login credentials.
2. Click on "Load Datacenters"

Actual results:
Datacenters are (of course) not loaded but foreman claims "Test connection successful".

Expected results:
The error "InvalidLogin: Cannot complete login due to an incorrect user name or password." is thrown.

**Revision cf6de107 - 08/03/2021 03:00 PM - Bernhard Suttner**

Fixes #33197 - Show error message if credentials are wrong
