Installer - Feature #33733
need to generate private db key for pulpcore 3.15
10/19/2021 05:56 PM - Justin Sherrill

Status: Closed
Priority: Normal
Assignee: Justin Sherrill
Category: Foreman modules
Target version: 3.1.0

Pull request: https://github.com/theforeman/puppet-pulpcore/pull/235

Description
The pulp installer runs:

```
openssl rand -base64 32 | tr '+' '-' > /etc/pulp/certs/database_fields.symmetric.key
```

and sets ownership to pulp

https://github.com/pulp/pulp_installer/blob/120942e1cb98ad3fb47c63ac9568f2fda09f25f5/roles/pulp_database_config/tasks/generate_database_fields_key.yml

Associated revisions
Revision 06f9e45d - 10/20/2021 05:18 PM - Justin Sherrill
Fixes #33733 - generate key for db encryption

History
#1 - 10/19/2021 10:20 PM - Justin Sherrill
foreman does something similar by running a rake task in an rpm script, i could see doing this either in:
1) the installer
2) the pulpcore rpm post script

#2 - 10/20/2021 12:27 PM - Evgeni Golov
- Description updated

#3 - 10/20/2021 12:29 PM - Ewoud Kohl van Wijngaarden
- Target version set to 3.1.0

and sets ownership to pulp

Does it need to own it or should it really be read-only to the pulp user? If so I'd prefer to set the owner to root and group to pulp.

03/06/2022
I think what you suggest with regard to ownership makes sense, edit isn't needed.

Applied in changeset puppet-pulpcore|06f9e45d658f641d3705b3165cfb93adbd125dd5.

Triaged changed from No to Yes

Fixed in Releases 3.1.0 added
