Pull request: https://github.com/theforeman/foreman/pull/8953

Triaged: No

Bugzilla link: 1869351

Description
Host's scoped search definitions are missing OrganizationParameter and LocationParameter from the scoped search definition.

Steps to reproduce:
1. Set boolean organization parameter foo = true to non-empty organization
2. Search for "params.foo = t" on hosts index page

Observe zero hosts

Expected:
All hosts in that organization
