Hammer CLI - Feature #3897
Replace foreman_api with dynamic bindings
12/17/2013 03:47 PM - Martin Bacovsky

Status: Closed
Priority: Normal
Assignee: Martin Bacovsky
Category: Foreman commands (obsolete)
Target version: 1.9.0

Description
The current hammer is communicating with API via foreman_api. It should be possible to replace it with dynamic bindings, that are easier to maintain and could solve some issues with the foreman plugins implementing API extensions
