**Description**

Somewhere along the way we have lost this requested feature [452]. I have a simple solution in the views file.

fixes #4524 - The logged in user should be the default one in create new hosts

Revision 56226574 - 03/12/2014 10:42 AM - Martin Ducar

fixes #4524 - The logged in user should be the default one in create new hosts

(cherry picked from commit 19579f872c1b4a512500f8e07f0b066180574e4e)

**History**

#1 - 03/03/2014 01:54 PM - Dominic Cleal
- Related to Feature #452: the logged in user should be the default owner when creating new hosts added

#2 - 03/03/2014 01:55 PM - Dominic Cleal
- Status changed from New to Ready For Testing
- Target version set to 1.9.0

[https://github.com/theforeman/foreman/pull/1263](https://github.com/theforeman/foreman/pull/1263)

#3 - 03/04/2014 08:26 AM - Dominic Cleal
- Has duplicate Feature #4532: Default new host owner to currently logged in user added

#4 - 03/04/2014 02:41 PM - Bryce Camp
I have tested this, it is not resolved. The form for a new host continues to show "Select an owner" as the default

#5 - 03/04/2014 02:55 PM - Martin Ducar
Yes it is true, but this new change should set the user that host is assigned to after you create it to the currently logged in. My previous change was changing it only in web template.
Interesting point, which makes more sense to you Martin? I'm wondering if we need both, since a host created through the API would find the change to the model useful, but seeing it explicitly set on the form might be best for GUI users.

Showing this for GUI users would be greatly appreciated.

I'm preparing the new change with both solutions

- Legacy Backlogs Release (now unused) set to 7

- Status changed from Ready For Testing to Closed
- % Done changed from 0 to 100

Applied in changeset 19579872c1b4a512500f8e070b066180574e4e.

- Has duplicate Bug #3771: Foreman 1.3.0: owner not populated for new hosts by default added

- Related to Feature #14013: Add setting for the default owner of new hosts added
