Installation instructions point to wrong Foreman directory

http://www.katello.org/docs/installation/index.html states:

```
yum -y localinstall http://yum.theforeman.org/&lt;INSTALL_TYPE&gt;/el&lt;OS_VERSION&gt;/x86_64/foreman-release.rpm
```

there is currently no 2.0 release of Foreman so the &lt;INSTALL TYPE&gt; should be hard coded to 1.6:

```
yum -y localinstall http://yum.theforeman.org/releases/1.6/el&lt;OS_VERSION&gt;/x86_64/foreman-release.rpm
```
