Pull request: https://github.com/theforeman/foreman/pull/2004

Triaged: Fixed in Releases: Found in Releases:

Bugzilla link:

Description
When editing multiple parameters for a set of hosts, if the hosts do not contain parameters, we display a link in the modal "back to host list". The cancel button does that already and is more intuitive.

How to reproduce
- click on several hosts without parameters on /hosts
- click on select action - edit parameters
- it should display a modal with two links to go back to the host page

Solution:
remove the link
