Foreman - Bug #9006

Chart that displays facts for all hosts needs a header

01/16/2015 11:13 AM - Bryan Kearney

Description

Cloned from [https://bugzilla.redhat.com/show_bug.cgi?id=1182565](https://bugzilla.redhat.com/show_bug.cgi?id=1182565)

Description of problem:

If you navigate to the "Facts" page for a host, on the right side there is a "Chart" button that displays a circular plot of the distribution of the selected fact over ALL hosts.

This is not obvious by the button label or by the chart that appears.

Version-Release number of selected component (if applicable):

Version 6.0.4 © 2014 Red Hat Inc.

How reproducible:

Always.

Steps to Reproduce:

1. Hosts > All Hosts
2. Click any host in the list and click "Facts"
3. On the right side, click Chart

Actual results:

A new window with a "Fact Chart" displays, but it's not obvious what it's about.

Expected results:

A tooltip that says "Display distribution of this fact for all hosts" or something similar would be nice.

The window itself should have a header describing the chart, e.g., "Distribution of Fact $fact_name Across all Hosts".
