**Description**
The foreman-config script seems to be broken. When using -k/-v to set config values, the script simply returns a list of the current config values:

```
$ foreman-config -k key -v value
```

foreman-config script is deprecated. Please consider using `foreman-rake config` instead
administrator: ...
authorize_login_delegation: ...
authorize_login_delegation_api: ...
...

Instead, I would like it to actually update my configs. After come digging, I found the underlying `rake` command was wrong:

https://github.com/theforeman/foreman/blob/1.7.1/script/foreman-config#L47

should be

exec('rake', 'config', *rake_args)

This happens on at least:
Foreman 1.7.1, Ubuntu 14.04 LTS, Ruby 1.9.3

**Associated revisions**

**Revision f05c3102 - 02/02/2015 07:43 PM - William Hutson**
Fixes #9193 - broken rake-config command

foreman-config now actually updates config values when passed -k and -v instead of dumping a list of the current values.

**Revision 2b2adbe3 - 03/04/2015 01:11 PM - William Hutson**
Fixes #9193 - broken rake-config command

foreman-config now actually updates config values when passed -k and -v instead of dumping a list of the current values.

(cherry picked from commit f05c31020587fa3f58e08a26a47530bd1ef26509)

**History**
I just tested this on CentOS 6/7 and it works fine.

foreman-rake config -- -k puppet_interval -v 99

I am almost sure that we have it correctly. Can you paste bin your error and how to reproduce it?

Hey Lukas,

Here's what I'm doing:

```
ubuntu@puppet:~$ sudo su - foreman
-s /bin/bash
foreman@puppet:~$ /usr/sbin/foreman-rake config -k puppet_interval -v 99
administrator: ...
authorize_login_delegation: ...
authorize_login_delegation_api: ...
```

Note it's just listing the configs. But if I move the ' -':

```
foreman@puppet:~$ /usr/sbin/foreman-rake -- config -k puppet_interval -v 99 99
```

I'm not sure if this is an Ubuntu issue, or a me issue :p

As a side note, this ticket is about the foreman-config (deprecated) script, which is being used by the puppet-foreman module, not foreman-rake.

Thanks for taking a look!

Hey Lukas,

Here's what I'm doing:

ubuntu@puppet:~$ sudo su - foreman
s /bin/bash
foreman@puppet:~$ /usr/sbin/foreman-rake config -k puppet_interval -v 99

administrator: ...
authorize_login_delegation: ...
authorize_login_delegation_api: ...

Note it's just listing the configs. But if I move the `--`

foreman@puppet:~$ /usr/sbin/foreman-rake config -k puppet_interval -v 99

99

I'm not sure if this is an Ubuntu issue, or a me issue :p

As a side note, this ticket is about the foreman-config (deprecated) script, which is being used by the puppet-foreman module, not foreman-rake.

Thanks for taking a look!

Rake version:

foreman@puppet:~$ /usr/sbin/foreman-rake --version
rake, version 10.4.2
#4 - 02/04/2015 06:58 AM - Lukas Zapletal
- Pull request https://github.com/theforeman/foreman/pull/2122 added
- Pull request deleted()

Ok. Tested.

#5 - 02/04/2015 07:01 AM - Anonymous
- Status changed from New to Closed
- % Done changed from 0 to 100

Applied in changeset f05c31020587fa3f58e08a26a47530bd1ef26509.

#6 - 02/05/2015 04:29 AM - Dominic Cleal
- Assignee set to William Hutson
- Legacy Backlogs Release (now unused) set to 32
