**Description**

Cloned from [https://bugzilla.redhat.com/show_bug.cgi?id=1186937](https://bugzilla.redhat.com/show_bug.cgi?id=1186937)

**Description of problem:**

If you try to create a New Compute Resource, we offer the ability to add a VMware system. In the dropdown for Provider though, we have it shown as "VMWare", when if you go to their website, they don't capitalize the W, it's just "VMware".

We should update the string to be "VMware" so that we reflect their name properly.
